

# Kim Hosty

## Web Developer

925.989.7621  
KimHosty@gmail.com

I am an energetic and imaginative front-end web developer and a multi-medium graphic designer, looking to expand my experience as a project manager.

---

### Professional Experience

#### **PARTY CITY**

Front-End Web Developer, Ecommerce

*May 2015 to present*

- Entrusted with creating and implementing the new content for each of Party City's four international websites
- Represents the coding aspect in meetings with department managers on customer-facing projects
- Introduced a problem-solving multilateral task-force that focuses on time-saving procedures
- Is actively engaged throughout the course of projects to identify and resolve potential problems
- Responsible for training and mentoring new Web Development team members
- Built upon existing responsibilities of the Junior position

Jr. Front-End Web Developer, Ecommerce

*July 2013 to May 2015*

- Regularly coded time-sensitive projects, including those with same-day turnaround
- Initiated innovative project request system that improved intra-office communication
- Performed cross-browser compatibility testing for new and existing web pages
- Worked in depth with the MarketLive content management system
- Maintained communication with regional and international offices to strategize timing of publishing and ensure consistent representation of regulations and price points

#### **KIM HOSTY DESIGNS**

Freelance Graphic Designer

*May 2011 to present*

- Engage with clients to ascertain and deliver their design needs
- Completed projects that include corporate identity and informational material, editorial prints, and social network branding

#### **THE EUROPEAN PHILOSOPHICAL SOCIETY (EPSSE)**

Freelance Graphic Designer

*July 2015*

- Rendered the client's concept into a vibrant programme for print and web use
- Paired an engaging timetable alongside curated artwork

#### **BRANCH**

Design Intern

*October 2011 to March 2012*

- Adapted images for the company's website to maintain the brand aesthetic
- Worked in depth with online retail programs including Zen Cart and MailChimp
